Detail

Recycling helps reduce the need to take things from our earth, by reusing old things.

Since you are not starting from scratch, it takes less energy when reusing things.

Recycling is very important, it helps our planet.

Recycling reduces the need for more landfills and helps reduce bad things into the air and water.

Main Idea + D APPLES Find it! Write

Directions: Read the passage below. Decide what the main idea is and pick three supporting details. Then write

Apples go through a long process before you can eat them. First a farmer has to grow the apples and take care of them. During this time they also treat the apples to keep them from getting sick. Next a worker has to come a long and pick the apples. Then the apples are loaded up on to trucks and taken to different locations. Some apples have to travel many miles to get to a sale location they have to be unloaded and put in boxes. Apples you eat go through a long process.
